Energy-Aware Systems and Networking for Sustainable Initiatives (Premier Reference Source) Naima Kaabouch

It is more important than ever to be concerned with energy related efforts, especially on what we as individuals can do now to help protect our future. With research coming out left and right on sustainable initiatives, we can only hope that future generations will benefit greatly from the efforts of today's researchers.

Energy-Aware Systems and Networking for Sustainable Initiatives covers a great variety of topics such as materials, environment, electronics, and computing. This title is a vital source of information detailing the latest architectures, frameworks, methodologies, and research on energy-aware systems and networking for sustainable initiatives. With contributions from authors around the world, this book presents the most sophisticated research and developments from the field, relevant to researchers, academics, and practitioners alike.
