How to Paint a Car in a Weekend: Learn to Paint from an Expert (How to "Automotive Body & Paint Repair" Book 1) Gregory Pierce

Hello, in this e-book I will lay out the correct way to paint a vehicle, and at the end I will have a numerical sequence of the steps to follow to completion. I will explain some of the industry standards of how professional Paint shops operate, and the different Paints and Primers available at the local Paint Supply Shops around the country.

I will explain the type of equipment you will need, and the different stages of the painting process. I will also have an e-mail address where you can send questions. I will try to keep it simple, but there is a lot of information that you will need to complete the job. We assume that the bodywork and trim removal has already been done and the vehicle is clean and ready to go into the paint shop where ever you paint it.

I will explain the proper way to paint a vehicle using an HVLP Paint gun the most common type and explain the proper spray distance. This will get you well on your way to beginning a new self-satisfying Hobby or perhaps Career because there is a great need for Automotive Painters all over the world.

If you are interested in going to work in a body shop as a Paint Prepper that is someone who is learning like you, then you should go apply for a position at the least, 4 shops, 6, if they're situated very close together. Apply 2 to 3 times a week, every week. I managed shops for many years and this will work. You will become friends with them and believe me you'll find a job, a smile and a positive attitude goes along way. Become an actor, and practice your positive attitude by smiling into a mirror. You should read Think and Grow Rich by Napoleon hill, very positive book to read to aid you in your job or career hunting.
