Perhaps there are few of the great personages in history who have been more talked about and written about than Christopher Columbus, the discoverer of America. It might seem, therefore, that there is very little that is new to be said about him. I do not think, however, that this is altogether the case. Absorbed in, and to a certain extent overcome by the contemplation of the principal event, we have sometimes, perhaps, been mistaken as to the causes which led to it. We are apt to look upon Columbus as a person who knew that there existed a great undiscovered continent, and who made his way directly to the discovery of that continent--springing at one bound from the known to the unknown.
