Why would we want to put our entire health economy under a socialist system, when free enterprise has built America to be the strongest country in the history of the world? Why would we allow the government to limit our choices when free enterprise ALWAYS gives you more choices at a lower cost? The Opposite of Obamacare explains why our health care system is destined to deteriorate if we don't change something fast. You will learn why business is always smarter than government, socialism always fails, and why free enterprise is the right way to go with health care and every other industry. Author Joe Gilbertson tells you this and more. You will also read about some novel ways to modify our health care system, to improve health care and force costs down, leveraging free enterprise at every turn. And finally, he brings you insights into the bright and exciting future of health care in America, if we don't ruin it first.
