What happens when Science's Instrument of Salvation blazes her own path? In the second installment of the Earth 8-8-2 saga, Genesis is heartbroken, disillusioned, but most of all ... angry: angry that she has no say-so in the narrative of her own purpose. In the absence of choice, the only response that makes sense is rebellion. As Genesis elicits the intensity of her powers, General Townsen must act quickly to develop a counterbalance to this previous experiment gone askew. Will the General's army rise effectively against this unlikely nemesis, or will all see the literal overtures of what occurs when powers that be attempt to regulate true evolution? NOTE: This IS NOT a stand alone story.
