**The Hidden Omega: A gay mpreg shifter romance (The Shifters of New York Book 1) Alex DuBois**  
**An omega on the run. An alpha struggling for control in an impossible situation. Neither of them were interested in love until they found it with each other ...**

One thing that Karl Holloway knows is that he is not interested in being an omega. He doesn't want to have to bear pup after pup for someone who doesn't care about him as a person at all.

Because of that, for almost as long as Karl can remember, he's been running. Until one night he runs right into Sergeant Steven Whitaker, who offers him the one thing he can't turn down ; a purpose in his life.

Whitaker is a recruiter for a very special department of the US Military. He offers Karl a chance to make a difference in the world, to train for the UN's peacekeeping forces. It's a chance that he can't turn down.

It didn't occur to him that they might already have other wolf shifters on the base.

Vincent Black is an alpha who was driven out of his previous pack years ago, and since then, he's been drifting. When offered the same deal, to train to represent his country as a UN peacekeeper, he jumped at it.

Put in charge of other wolf shifters, he struggles to form them into a pack. Things are difficult enough before the omega walks into his life and sparks fly. Neither of them want a child or feel ready for one, but staying away from each other may prove harder than it seems.

As if the sexual tension isn't enough, things in the military base aren't entirely what they seem. Will Karl and Vincent be able to unravel what's going on with Sergeant Whitaker before it's too late?

*The Hidden Omega* is a gay mpreg romance with steamy, hot scenes and a happily ever after ending. It's a standalone story, though it shares some characters with my other books.
