**The Jesuits in North America: in the Seventeenth Century (Illustrated)** Francis Parkman

In the author's own words:

"Is this true history, or a romance of Christian chivalry? It is both."

"Few passages of history are more striking than those which record the efforts of the earlier French Jesuits to convert the Indians. Full as they are of dramatic and philosophic interest, bearing strongly on the political destinies of America, and closely involved with the history of its native population, it is wonderful that they have been left so long in obscurity. While the infant colonies of England still clung feebly to the shores of the Atlantic, events deeply ominous to their future were in progress, unknown to them, in the very heart of the continent."

"...These form but a part of the surviving writings of the French-American Jesuits. Many additional reports, memoirs, journals, and letters, official and private, have come down to us; some of which have recently been printed, while others remain in manuscript. Nearly every prominent actor in the scenes to be described has left his own record of events in which he bore part, in the shape of reports to his Superiors or letters to his friends. I have studied and compared these authorities, as well as a great mass of collateral evidence, with more than usual care, striving to secure the greatest possible accuracy of statement, and to reproduce an image of the past with photographic clearness and truth."

This illustrated reproduction has been meticulously formatted for Kindle readers, with footnotes and an active Table of Contents.
