## **The Odyssey (Homers Odyssey with notes)** Homer

The Odyssey by Samuel Butler The Odyssey is one of two major ancient Greek epic poems attributed to Homer. It is, in part, a sequel to the Iliad, the other work ascribed to Homer. The poem is fundamental to the modern Western canon, and is the second oldest extant work of Western literature, the Iliad being the oldest. Scholars believe it was composed near the end of the 8th century BC, somewhere in Ionia, the Greek coastal region of Anatolia. The poem mainly focuses on the Greek hero Odysseus (known as Ulysses in Roman myths) and his journey home after the fall of Troy. It takes Odysseus ten years to reach Ithaca after the ten-year Trojan War. In his absence, it is assumed he has died, and his wife Penelope and son Telemachus must deal with a group of unruly suitors, the Mnesteres or Proci, who compete for Penelope's hand in marriage. Butler's Translation of the "Odyssey" appeared originally in 1900, and The Authoress of the Odyssey in 1897. In the preface to the new edition of "The Authoress", which is published simultaneously with this new edition of the Translation, I have given some account of the genesis of the two books. The size of the original page has been reduced so as to make both books uniform with Butler's other works; and, fortunately, it has been possible, by using a smaller type, to get the same number of words into each page, so that the references remain good, and, with the exception of a few minor alterations and rearrangements now to be enumerated so far as they affect the Translation, the new editions are faithful reprints of the original editions, with misprints and obvious errors corrected—no attempt having been made to edit them or to bring them up to date.
