The first question all harmonica students ask is, 'Which harp do I need for which blues key?'

This book contains a chart to tell you exactly which harmonica you need to buy to play blues in any particular key, even major or minor blues' need different harmonicas.

This book really will fill you in on the best possible way to not only play the harmonica but clearly understand why beginners often get it wrong.

The only thing professionals have is experience of what they did wrong. If you can at least speak like a pro from the start then you won't feel intimidated at the jam session or afraid to ask questions to other musicians. This book tackles all aspects of how to play this extremely cool instrument which is still as haunting now as it ever was.

Learn to bend notes for that authentic sound you always wanted.

Wail with your harp and join in with other musicians. Blues is still great to hear live and knowing that you have an opportunity to join in should always be an option.

If you understand 'Why', shortly after 'How' becomes your reality.
