Buying your first horse is exciting and intimidating at the same time. You want to make sure that you find the right horse, so that you can feel comfortable, have fun, and learn to be a better rider. You want a horse that is healthy and sound so you can have many years together. The process of finding your new horse should be fun, but unfortunately navigating through misleading ads, trying to figure out what questions to ask a seller, and making decisions regarding pre-purchase exams and trials can be frustrating.

That's why I wrote this book. I wanted to give the new horse buyer a practical guide to finding and purchasing their new horse. This book is designed to be an easy and quick reference to the essentials of what you need to know to make a smart horse purchase.

This book covers all the essential information you need to navigate the purchase of your first horse (or your second or third, for that matter). It goes over what to ask yourself before buying, what to consider regarding the time and financial commitments of horse ownership, how to find horses for sale, who sells horses and what the differences are between buying from a private seller vs. a dealer or an auction. This book will also help you evaluate a horse and understand other parts of the sale like pre-purchase exams and trials.

Purchase and read this book to have more certainty about finding your new dream horse, from looking at the first ads through signing a sales contract and bringing your new horse home!
