THINK *INVASION OF THE BODY SNATCHERS* MEETS *THE X-FILES*..AND PREPARE TO SHAKE IN YOUR SHOES!

Random, increasing violence plagues the town. People have gone missing. Bodies are piling up. Paranormal investigator Eddie McCloskey can't trust anyone.

Something inexplicable is happening in this edge-of-your-seat supernatural thriller, which starts with suspense, sneaks in a few chills, moves on to thrills, and ends in a melee of outright screaming horror. A few highlights:

The man's daughter isn't possessed. But Eddie can't tell him that.

The people aren't actually missing. They're hiding. But Eddie can't tell the cops that.

And Eddie's got a personal issue: He's forced to work with someone from his past--an extremely dangerous psychic he never wants to see again.

He's in way over his head. But he *sure*, can't tell that to the deep-cover team of federal agents that pepper the landscape.

This paranormal-mystery-horror-thriller's got elements of all the great zombie movies, plus the X-Files, and even Men in Black, except that there are no aliens here—and it's definitely not a comedy! This is a deadly serious every-man-for-himself horror spooker. Oh, and by the way, there are no zombies as well as no aliens—the explanation is even more strange. And decidedly more chilling. Because, believe us, it *could* happen here!

WHO WILL LIKE IT: horror and zombie fans, lovers of paranormal mysteries and supernatural thrillers, in particular the kind of old-movie fans who love to kick back with NIGHT OF THE LIVING DEAD or even BEVERLY HILLS BODYSNATCHERS. Stephen King and Dean Koontz fans will be in horror heaven!

??? Q&A with the author, Evan Ronan

Q: How would you describe The Eddie McCloskey series?

A: Fast, fun, often scary books that are all a little bit different and span genres. The Unearthed is more a slow-burn horror story with elements of mystery. The main character is Eddie McCloskey, who grows a lot as a character throughout the series. He's great fun to write.

Q: How would you describe The Hysteria?

A: A breakneck action thriller that never lets up with a shocking climax.

Q: So this Laughing Sickness that Eddie references in the book...is that real?

A: Apparently! Check out Wikipedia.

Q: What does it mean to you when readers buy your books?

A: It's the ultimate compliment. I might never be a best-selling author, but the feedback from readers I've gotten is wonderful. It's really touching when you look at someone's Amazon profile and discover their first review of anything on the website is your book. They not only bought the story, they went out of their way to tell others about it. And it's even better when they buy one of my sequels - that means they enjoyed the first book and are willing to go on this trip with me.

Q: Why do you make each book in the series a little different?

A: For my own sanity and to keep the readers guessing as to where the story will go. The Lost is a suspense thriller. The Accused and the Damned is a paranormal legal thriller. The Hysteria is a paranormal action thriller. The Traveler is a murder mystery. I love putting Eddie in different situations, so he's out of his comfort zone in every story. That makes for compelling fiction.

Q: Will Eddie ever run into [REDACTED]?

A: I can't answer that out of respect for the spoiler.

??? If you like my books, please leave me a review!
