**GLM Multivariate, MANOVA, & Canonical Correlation 2015 (Statistical Associates Blue Book Series 11)** G. David Garson

GLM MULTIVARIATE, MANOVA, & CANONICAL CORRELATION Overview

An illustrated tutorial and introduction to multivariate general linear models, MANOVA, MANCOVA, and linear and nonlinear canonical correlation, using SPSS, SAS, and Stata for examples. Suitable for introductory graduate-level study.

The 2015 edition is a major update to the 2012 edition. Among the new features are these:

- \* Was 59 pages, now book length (270 pages total)
- \* Has over 130 new illustrations
- \* Now covers Stata and SAS as well as SPSS
- \* Shows commands and options needed for similar results across packages.
- \* Totally revised with new examples
- \* New coverage detailing assumptions and testing for them.
- \* New coverage of 29 Frequently Asked Questions.
- \* New coverage of nonlinear canonical correlation.
- \* Links to all datasets used in the text.

Below is the unformatted table of contents.

MULTIVARIATE GLM, MANOVA, AND MANCOVA 1

Data examples for MANOVA 10

MANOVA & MANCOVA 10

GLM in statistics packages 12

SPSS 12

SAS 12

Stata 12

Key coefficients in multivariate GLM 13

F tests 13

t tests 13

Partial eta-square 14

R-Square 14

Omega-square 14

Multivariate GLM in SPSS 15

SPSS input 15

The main multivariate GLM dialog 15

The Model dialog 16

The Options dialog 18

The Contrasts dialog 19

The Plots dialog 20

The Save dialog 21  
The Post hoc dialog 22  
The Bootstrap dialog 23  
SPSS syntax 24  
SPSS output 25  
Multivariate significance tests 25  
Significance tests of between-subjects effects (F tests) 28  
Parameter estimates 30  
Differences in statistical inference 32  
Lack of fit tests 32  
Spread-versus-level plots 36  
Residual plots 38  
Outlier diagnostics 40  
Analysis of covariance 40  
Estimated marginal means 40  
Profile plots 43  
Pairwise comparison tables 46  
Multiple comparison and post-hoc tests 48  
Contrast tests 50  
Multivariate GLM in SAS 53  
SAS input 53  
SAS Output 55  
Multivariate significance tests 55  
Significance tests of between-subjects effects 56  
Parameter Estimates 60  
Lack of fit tests 61  
Spread-versus-level plots 61  
Residual plots 63  
Outlier diagnostics 68  
Analysis of covariance 73  
Estimated marginal means 74  
Profile Plots 75  
Pairwise comparison tables 76  
Multiple comparison and post-hoc tests 80  
Contrast tests 82  
Multivariate GLM in Stata 85  
Stata input 85  
Stata output 87  
Multivariate significance tests 87  
Significance tests of between-subjects effects (F tests) 89  
Parameter Estimates 91  
Lack of fit tests 91  
Spread-versus-level plots 91  
Residual plots 95  
Outlier diagnostics 101  
Analysis of covariance 108  
Estimated marginal means 110  
Profile Plots 111  
Pairwise comparison tables 113

Multiple comparison and post-hoc tests 115  
Contrast tests 119  
GLM multivariate assumptions 123  
Measurement level 123  
Observations are independent of one another 123  
Random sampling 124  
Homogeneity of error variances 124  
Levene's test 125  
SPSS 126  
SAS 127  
Stata 128  
Homogeneity of regressions 130  
Overview 130  
SPSS 131  
SAS 132  
Stata 133  
Homogeneity of covariances 135  
Box's M test 135  
SPSS 136  
SAS 137  
Stata 138  
Sphericity 139  
Bartlett's test of sphericity 139  
SPSS 140  
SAS 141  
Stata 142  
Low measurement error of the covariates 142  
Similar group sizes 143  
Adequate group sizes 143  
Appropriate sums of squares 143  
SPSS 144  
SAS 144  
Stata 144  
Random normal residuals 145  
Linearity 145  
Multivariate normal distribution 145  
No outliers 146  
GLM frequently asked questions 146  
Why can't I just use multiple univariate ANOVA tests rather than MANOVA? 146  
How do I write up the results of my MANOVA analysis? 147  
How many dependent variables can I have in MANOVA? 148  
Can I enter just one dependent variable in MANOVA? 149  
Is there a limit on the number of covariates which can be included in a multiple analysis of variance? 149  
Explain the syntax for MANOVA in SPSS 149  
What is analysis of residuals for in MANOVA 150  
AND 120 MORE PAGES OF TOPICS

### **From reader reviews:**

#### **Darrell Guess:**

The knowledge that you get from GLM Multivariate, MANOVA, & Canonical Correlation 2015 (Statistical Associates Blue Book Series 11) is a more deep you rooting the information that hide into the words the more you get enthusiastic about reading it. It does not mean that this book is hard to know but GLM Multivariate, MANOVA, & Canonical Correlation 2015 (Statistical Associates Blue Book Series 11) giving you buzz feeling of reading. The writer conveys their point in a number of way that can be understood simply by anyone who read this because the author of this publication is well-known enough. That book also makes your personal vocabulary increase well. Making it easy to understand then can go along, both in printed or e-book style are available. We suggest you for having this particular GLM Multivariate, MANOVA, & Canonical Correlation 2015 (Statistical Associates Blue Book Series 11) instantly.

#### **Paul Douglas:**

The publication with title GLM Multivariate, MANOVA, & Canonical Correlation 2015 (Statistical Associates Blue Book Series 11) has lot of information that you can find out it. You can get a lot of help after read this book. This kind of book exist new knowledge the information that exist in this book represented the condition of the world today. That is important to yo7u to learn how the improvement of the world. This specific book will bring you in new era of the internationalization. You can read the e-book on your own smart phone, so you can read the idea anywhere you want.

#### **Delbert Storey:**

A lot of people always spent their free time to vacation or go to the outside with them loved ones or their friend. Were you aware? Many a lot of people spent they will free time just watching TV, or even playing video games all day long. In order to try to find a new activity that's look different you can read some sort of book. It is really fun to suit your needs. If you enjoy the book which you read you can spent 24 hours a day to reading a e-book. The book GLM Multivariate, MANOVA, & Canonical Correlation 2015 (Statistical Associates Blue Book Series 11) it is quite good to read. There are a lot of people that recommended this book. These people were enjoying reading this book. If you did not have enough space to develop this book you can buy the e-book. You can m0ore easily to read this book from a smart phone. The price is not too costly but this book features high quality.

#### **Joshua White:**

People live in this new moment of lifestyle always try to and must have the time or they will get large amount of stress from both way of life and work. So , once we ask do people have time, we will say absolutely of course. People is human not only a robot. Then we ask again, what kind of activity do you possess when the spare time coming to you of course your answer can unlimited right. Then ever try this one, reading books. It can be your alternative within spending your spare time, the book you have read is GLM

Multivariate, MANOVA, & Canonical Correlation 2015 (Statistical Associates Blue Book Series 11).
