The Adobe Photoshop Lightroom 2 Book for Digital Photographers (The Adobe Photoshop Lightroom CC) Scott Kelby

Written in concert with Adobe's development of the Photoshop Lightroom 2 Beta, The Adobe Photoshop Lightroom 2 Book for Digital Photographers - by #1 bestselling computer and technology author, Scott Kelby - is the most complete and concise Lightroom "how-to" book for digital photographers of all skill levels.

In The Adobe Photoshop Lightroom 2 Book for Digital Photographers, Scott walks readers through the basics of Lightroom use, leading them to a brilliantly devised and super efficient digital photography workflow that dramatically improves productivity and allows photographers to spend less time processing photos and more time shooting them.

Throughout the book Scott shares his personal camera and Lightroom settings, as well as the studio-tested techniques he's developed for his own photography workflow. The book is written in his trademark step-by-step, plain English style, and because he knows what really works and what doesn't, he isn't shy to tell you flat out which tools to use, which to avoid, and why. This allows digital photographers of any skill level to jump right in using Lightroom like a pro from the very start, sidestepping a lot of the frustrations that typically haunt those unfamiliar with new applications…especially those as powerful as Lightroom.

What really sets The Adobe Photoshop Lightroom 2 Book for Digital Photographers apart from other Lightroom books on the market are the last two bonus chapters where Scott answers the questions, "In exactly what order am I supposed to do things in Lightoom," and "Where does Photoshop fit in to the mix?" Both chapters start with an on-location photo shoot, including full details on the equipment, camera settings, and lighting techniques. Readers then witness as he takes the photos from each shoot through the entire workflow process, to the final output of the 16"x20" prints. And, because he incorporates Photoshop seamlessly right into this workflow, you'll learn some of the latest Photoshop techniques for portrait and landscape photography as well.

If you're one of those people who learns best by actually doing the projects yourself; who learns best without all the complicated technical explanations and confusing jargon, and if you really want to start using Lightroom today to unlock the productivity secrets of "The new digital photography workflow,"---there is no faster, more "straight-to-the-point" or more fun way to learn than this groundbreaking new book, and you are absolutely going to love it!

From reader reviews:

Douglas Whatley:

Do you have favorite book? When you have, what is your favorite's book? Reserve is very important thing for us to know everything in the world. Each e-book has different aim or perhaps goal; it means that book has different type. Some people truly feel enjoy to spend their time for you to read a book. They can be reading whatever they acquire because their hobby is usually reading a book. What about the person who don't like looking at a book? Sometime, particular person feel need book after they found difficult problem as well as exercise. Well, probably you will require this The Adobe Photoshop Lightroom 2 Book for Digital Photographers (The Adobe Photoshop Lightroom CC).

Carol Boissonneault:

What do you think of book? It is just for students since they're still students or this for all people in the world, exactly what the best subject for that? Merely you can be answered for that question above. Every person has various personality and hobby for each other. Don't to be forced someone or something that they don't desire do that. You must know how great and also important the book The Adobe Photoshop Lightroom 2 Book for Digital Photographers (The Adobe Photoshop Lightroom CC). All type of book would you see on many solutions. You can look for the internet solutions or other social media.

Dollie Simmons:

Is it anyone who having spare time in that case spend it whole day by means of watching television programs or just lying on the bed? Do you need something new? This The Adobe Photoshop Lightroom 2 Book for Digital Photographers (The Adobe Photoshop Lightroom CC) can be the respond to, oh how comes? It's a book you know. You are thus out of date, spending your extra time by reading in this fresh era is common not a nerd activity. So what these books have than the others?

Scott Hicks:

As a scholar exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just very little students that has reading's heart and soul or real their leisure activity. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that examining is not important, boring along with can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this The Adobe Photoshop Lightroom 2 Book for Digital Photographers (The Adobe Photoshop Lightroom CC) can make you sense more interested to read.
