Maureen E. Lacey, Jonathan S. West

The Air Spora: A manual for catching and identifying airborne biological particles Maureen E. Lacey, Jonathan S. West

This is an illustrated guide to trapping, identifying and quantifying airborne biological particles such as fungus, plant spores and pollen. Including a comprehensive review of what is in the air and detailing the historical development of theories leading to modern aerobiology, the book explains the fundamental processes behind airborne dispersal and techniques used to sample, identify and quantify biological particles. Includes photographs and 9 colour reproductions of paintings of airborne particles.
