The God Delusion: by Richard Dawkins | Key Takeaways, Analysis & Review

Preview:

In *The God Delusion*, philosopher Richard Dawkins evaluates popular arguments for the existence of God. The idea that God is not an object that can be accessed and reviewed using human reason is rejected. Instead, evidence that proves with at least 51% certainty is presented to prove that God does, in fact, not exist, casting reasonable doubt on the efficacy and usefulness of belief in God.

Genuine curiosity as disciplined by a sound scientific method is far more useful than religions. Religion is all too often based on superstition. An in depth investigation of the intellectual bankruptcies of polytheism and monotheism, the secular beliefs of the Founding Fathers, and the Galton and Stannard prayer experiments underscore this idea. In contrast, the argument for natural selection shows it can account for the whole of human life rather than the idea that there is one divine creator, a statement that in itself leads to more questions, such as the origins of that single creator...
