This analysis delves into aspects of the larger framework into which 9/11 fits and scrutinizes the ancestry of the players who transcend commonly accepted liberal/conservative political ideologies. Building on the research of such notables as theologian David Ray Griffin, Michael Ruppert, and Anthony Sutton—all of whom have questioned the government's account of 9/11—this comic-book format analysis examines the Neo Con agenda and its relationship to “The New World Order.” From the privatized fund-raising system to which politicians are beholden to evidence contradicting the conventional wisdom that the 19 hijackers took our nation by surprise and the widespread suppression of human rights, this book discusses key issues confronting America's citizenry and steps the populace can take to not only halt but reverse the march towards totalitarianism.
