High Throughput Satellites Technology and Applications Daniel Minoli

This book explores critical technical and service advances affecting commercial satellite communications over the past few years, particularly the emergence of High Throughput Satellites (HTS). After a basic satellite primer, the book discusses GSO Ka HTS, GSO Ku HTS technologies, and Non-GSO Ka HTSs and related designs and technologies. Mobility services, for example aeronautical and maritime applications such as Internet service while on the move, are also covered.
