Germany in the Age of Absolutism

Rudolf Vierhaus

Germany in the Age of Absolutism Rudolf Vierhaus

Rudolf Vierhaus's work is much more than a political history of Germany from the Thirty Years' War to the end of the Seven Years' War. His study reconstructs the historical elements that marked this age. He examines economic developments, the social system, and cultural life, even as he continues to pay close attention to Germany's political organizations, its wars, and political conflicts. German history is set both within the diverse pattern of its regional life and the larger European context, in order to restore a full analytical complexity to the age of absolutism.
