## **Chemotherapy Drug Exposures at an Oncology Clinic-Florida (Health Hazard Evaluation Report:**

**HETA 2009-0148-3158)** James Couch, Christine West, Department of Health and Human Services Centers for Disease Control and Prevention, National Institute for Occupational Safety and Health

The National Institute for Occupational Safety and Health (NIOSH) received a confidential employee request for a health hazard evaluation (HHE) at an oncology clinic in Florida. Employees submitting the HHE request were concerned with work-related upper respiratory irritation, headache, fainting, diarrhea, loss of appetite, and other health effects. NIOSH findings and recommendations are detailed.
