Sobolev Spaces, Their Generalizations and Elliptic Problems in Smooth and Lipschitz Domains (Springer Monographs in Mathematics)

Mikhail S. Agranovich

Sobolev Spaces, Their Generalizations and Elliptic Problems in Smooth and Lipschitz Domains (Springer Monographs in Mathematics)

Mikhail S. Agranovich

Sobolev Spaces, Their Generalizations and Elliptic Problems in Smooth and Lipschitz Domains (Springer Monographs in Mathematics) Mikhail S. Agranovich

This book, which is based on several courses of lectures given by the author at the Independent University of Moscow, is devoted to Sobolev-type spaces and boundary value problems for linear elliptic partial differential equations. Its main focus is on problems in non-smooth (Lipschitz) domains for strongly elliptic systems.

The author, who is a prominent expert in the theory of linear partial differential equations, spectral theory and pseudodifferential operators, has included his own very recent findings in the present book.

The book is well suited as a modern graduate textbook, utilizing a thorough and clear format that strikes a good balance between the choice of material and the style of exposition. It can be used both as an introduction to recent advances in elliptic equations and boundary value problems and as a valuable survey and reference work. It also includes a good deal of new and extremely useful material not available in standard textbooks to date.

Graduate and post-graduate students, as well as specialists working in the fields of partial differential equations, functional analysis, operator theory and mathematical physics will find this book particularly valuable.

From reader reviews:

Ross Jackson:

What do you about book? It is not important along with you? Or just adding material when you need something to explain what your own problem? How about your spare time? Or are you busy man or woman? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have free time? What did you do? Every individual has many questions above. They must answer that question simply because just their can do that. It said that about book. Book is familiar in each person. Yes, it is correct. Because start from on jardín de infancia until university need this particular Sobolev Spaces, Their Generalizations and Elliptic Problems in Smooth and Lipschitz Domains (Springer Monographs in Mathematics) to read.

Maurice Miller:

Now a day individuals who Living in the era wherever everything reachable by talk with the internet and the resources inside it can be true or not require people to be aware of each facts they get. How individuals to be smart in acquiring any information nowadays? Of course the correct answer is reading a book. Reading a book can help folks out of this uncertainty Information particularly this Sobolev Spaces, Their Generalizations and Elliptic Problems in Smooth and Lipschitz Domains (Springer Monographs in Mathematics) book as this book offers you rich info and knowledge. Of course the details in this book hundred pct guarantees there is no doubt in it as you know.

Dorinda Kling:

Hey guys, do you wants to finds a new book to study? May be the book with the concept Sobolev Spaces, Their Generalizations and Elliptic Problems in Smooth and Lipschitz Domains (Springer Monographs in Mathematics) suitable to you? Often the book was written by popular writer in this era. The book untitled Sobolev Spaces, Their Generalizations and Elliptic Problems in Smooth and Lipschitz Domains (Springer Monographs in Mathematics)is the one of several books that everyone read now. This kind of book was inspired lots of people in the world. When you read this e-book you will enter the new dimensions that you ever know just before. The author explained their thought in the simple way, and so all of people can easily to understand the core of this publication. This book will give you a wide range of information about this world now. So that you can see the represented of the world with this book.

Tommy Heckman:

Reading a book to get new life style in this yr; every people loves to study a book. When you go through a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, since book has a lot of information in it. The information that you will get depend on what sorts of book that you have read. If you want to get information about your study, you can read education books, but if you want to entertain yourself you can read a fiction books, these kinds of us novel, comics, in addition to soon.

The Sobolev Spaces, Their Generalizations and Elliptic Problems in Smooth and Lipschitz Domains (Springer Monographs in Mathematics) offer you a new experience in studying a book.
