Canada's Anti-Spam Law has been called the most aggressive on the planet. CASL packs a strong punch with a combination of severe financial penalties and reputational damage. Particularly dependent on IT systems and process, the legislation makes it difficult for most small and mid-size businesses to understand, potentially introducing the real threat of legal action or public ridicule.

This package includes a free professional telephone consultation (reg. \$375) with certified auditors to ensure you have an opportunity to determine where you stand and whether you need to learn more about anti-spam controls.

All moneys spent on this volume go directly towards the cost of a professional Verify(tm) Information Risk Assessment, conducted by experienced IT security auditors.
