Histologic Diagnosis of Inflammatory Skin Diseases: An Algorithmic Method Based on Pattern Analysis A. Bernard, M.D. Ackerman, A. Bernard Ackerman

This edition features a reworked format for the discussion of each disease, to emphasize clinical features and histopathologic findings. The algorithm-based learning approach should help the reader to find shortcuts to diagnosis, and to differentiate similarly-presenting disorders. 20000 colour photomicrographs illustrate each inflammatory disease at high and low magnification to show cytologic and pattern details. Clinical information is provided for each disorder, alongside a commentary. A free copy of "Pocket Guide to Medications used in Dermatology" is available with this title.
